

Fast and Simple Dental RCM - in One Place

Vyne Dental bridges the gap between patients, practices, payers, and partners to make the exchange of dental information faster and easier. Our clearinghouse, provider revenue acceleration software, and API offerings uniquely position us to help the dental care industry enhance their workflows and financial performance.

Accepted

Unlimited Electronic Claims and Attachments in One, Seamless Flow

Process, track, and manage all your claims electronically for one low monthly fee. Save time and money and get paid faster. Attach unlimited images and documents electronically to help increase your approval rate and accelerate your reimbursements.

Eligible

Batch and Real-Time Eligibility Verification and Benefit Breakdown

Confirm your patients' insurance plan eligibility and benefit breakdown instantly and in real-time or in batches. Spend less time on the phone with payers, and more time with the patients you serve.

Customizable, Integrated Electronic Patient Forms

Create fully customizable forms to collect and insert patients' information before they arrive within a secure environment. Speed up your checkin routine and keep your patient information up-to-date.

1:00 pm 2:00 pm 3:00 pm
BOOK APPOINTMENT

Online Scheduling

Maintain total control over your ideal schedule by customizing real-time, integrated online appointments based on your practice's schedule, appointment durations, available procedures, provider preferences, and more.

SCHEDULE AN APPOINTMENT

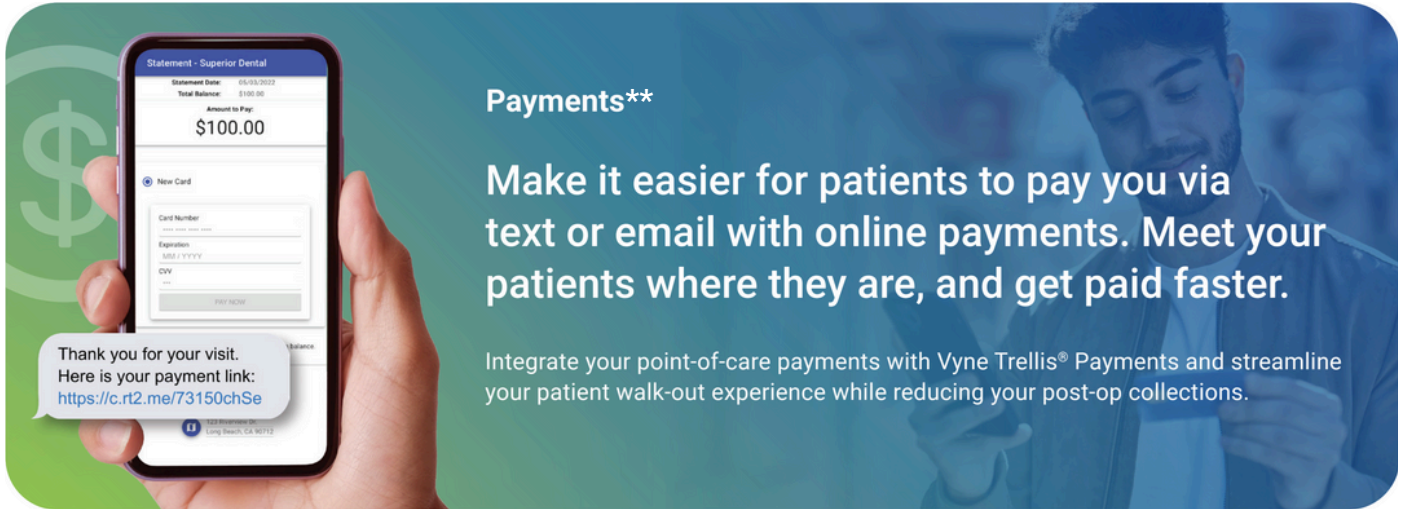

Campaigns

Accelerate case acceptance and appointment compliance with fully customizable text or email campaigns that allow you to segment your patient population based on procedures needed, insurance coverage, last treatment date, and more.

Good evening. May I ask who I have the pleasure of chatting with today?
Sure - my name is Nicholas.
Hi Nicholas. How can I help you?

Live Webchat

Book appointments and fill your schedule with ideal patients, around the clock, with a team of real people trained to answer questions specific to your practice.

Payments**

Make it easier for patients to pay you via text or email with online payments. Meet your patients where they are, and get paid faster.

Integrate your point-of-care payments with Vyne Trellis® Payments and streamline your patient walk-out experience while reducing your post-op collections.

Secure Email*

Protect your patients and your practice with our trusted, email encryption feature. Send sensitive health information with complete confidence.

Patient Reminders

Keep your calendar full with personalized patient reminders and confirmations automatically sent by text or email.

Online Reviews

Automate and accelerate your positive reviews to grow your online reputation.

Team Chat

Securely communicate to-dos, patient updates, and more with your team on virtually any device within your network.

Electronic Case Collaboration

Securely share patient information, diagnoses, planned treatment, narratives, exams and images with your clinical referral network.

Claim Denial Support

Because we're the claims management software, clearinghouse, and communication platform, you'll enjoy full visibility and support along the claims processing journey.

Electronic Remittance Advice

For payers with whom you've enrolled in electronic payments, you'll get your ERAs delivered right back to your claims inbox - many in real-time!

*Secure Email is email transmission functionality that requires login credentials for access, is encrypted at rest, allows for email delivery revocation, auto-expiration for access to data, recipient authentication and read receipts. Use of Secure Email does not guarantee additional or absolute security.

**The use of Vyne-Trellis® Payments feature is subject to completing a merchant order form, registering a financial account, and agreeing to the terms set by our payments partner, Stripe.

"Since we implemented the Vyne mobile payment feature, our collections have increased tremendously! It's efficient and a great addition to our monthly billing routine. We love the ease of use and we are not regretting the decision to go with the Vyne mobile payment feature. It really is worth the hype!"
